The Frugal Empowerment Foundation began in 2016. After seeing the suffering of people

About US

Frugal Empowerment Foundation is a Nongovernmental Organization established with the core objective of touching the lives of the less privileged and vulnerable persons. Our

scope stretches beyond UK and Nigeria where we are officially registered. Our aim is to aid the prevention or relief of poverty anywhere in the world, but particularly in the UK, by providing or assisting in the provision of education, training, and all the necessary support designed to enable individuals to generate

Cont'd on pg 2

Our Aim:

The prevention or relief of poverty anywhere in the world, but particularly in the UK, by providing or assisting in the provision of education, training, and all the necessary support designed to enable individuals to generate a sustainable income and be self-sufficient

By providing: Grants, Items, and services to individuals in needs/or charities, or organizations working to prevent or relief poverty anywhere in the world, but particularly in Nigeria

belonging to a black man that is really successful manage our resources.

and as a way to find solution to this problem, the Frugal Empowerment Foundation was borne with the primary aim to empower and educate about community building and supporting one another in our community. We came to understand that what has made us fail as a community is the fact that we do not love each other. So Frugal Foundation came to find solution to the hatred in the community.

We designed three main principles which is to love, care and support others to succeed. With these principles we have been able to educate and support people to build good community within Africa.

Having lived in the west and understudied their lifestyle, we see that educating people about values, norms and supporting one another within the community are the key principles to their success. We saw the need to replicate this in the African community; to enable us understand ourselves and develop capacity to

Frugal Empowerment Foundation has grown from a few people to thousands of people based on these three common principles- love, care and support.

To achieve these three principles we came up with three categories of operation, such as Talent Development, Skill and Charity Initiative.

Through the talent development we have discovered artist whose music are making impact in the world today, also we have discovered people who are good in technology and gone into tricycle production in Edo State.

The Skill Initiative has been used to educate people. Those who have interest in fashion designing, we built a centre to enable the do that. Those with interest in production we support them as well. And the result is that we have them making tomatoes paste, watermelon juice, hair cream and shampoo products. The idea is to take the youth off the street and begin to empower them to refocus their aspirations and become successful in the community.

Our inspiration has been to find what we can do to help Africa succeed because Africans are highly discriminated and suppressed in their own land.

The Frugal Idea is not however limited to the African Community. It also touches every other community out there; anywhere we have people who are in need and require support in their aspiration to become what

they want to be. This is why we extend the Frugal Vision to UK where we support the homeless, elderly and young Britain who wants to take part in music empowerment.

We are glad to announce that Frugal is opening branches in Zambia, Sierra Leone and Ethiopia. The aspiration to make Africa a successful continent is gradually taking shape. The network is building every day.

We are not limiting ourselves to Africa as we are looking at the situation across Europe and the other western countries to see how we may be able to support in our own way. This we are already doing. We are proud to say that over 2.2million people have benefited from the Frugal Empowerment Foundation Charity Initiative.

Through the Caring Saturday's (under the Charity Initiative) we have been able to bring communities together and education about loving, caring and supporting each other. We have done this Edo, Ogun, Lagos, Abia, Bayelsa, Plateau, Benue, Adamawa state and the rest. As at today we have our presence in 13 states in Nigeria, we in Zambia, Sierra Lone, UK and Greece and people are identifying with us.

To be able to speak up within the community we came up with the Frugal Empowerment Leadership Project. The project is designed to identify people who want to help to build our community so we can spread the leadership education across various institutions in our continent and in our country Nigeria especially so that people are aware of what good leadership is all about. We are also creating a forum for the politicians to come and learn as well as share their experiences on good leadership.

Our story is amazing and future is attractive. We believe we can and we will make the difference with you on our team.

About Frugal Cont'd

a sustainable income and be self-sufficient.

We are also passionate about providing grants/charities items and services to individuals in needs, or organizations working to prevent or relief poverty anywhere in the world, but particularly in Nigeria and anywhere in Africa.

Our vision is to elevate millions of youths including children, orphans, widows and those in crisis environment from poverty through the series of our live saving initiatives.

The Frugal Foundation is established fundamentally on the premise of reducing the alarming level of poverty, hunger and deprivation that has infested our economic landscape.

We are focused to give hope to the hapless talented youths in our midst, to support them to actualize their vision; that is, the unsung potential heroes of talented youths who operate from economic disadvantaged background. This Foundation affects their lives by supporting and encouraging them to be a success story in the environment they otherwise considered impossible and to make a difference in their lives. We are poised in redefining their perceptions, purpose, and prospects by giving them the needed support to succeed.

We are actualizing this vision by supporting them wholeheartedly; financially, materially and morally to enable them to pursue and accomplish their vision.

FEF INITIATIVES

TALENT DEVELOPMENT

History has it that most of the finest artist and talents are men and women from communities that were hitherto written off to have such talents. It is because of this that the Frugal Empowerment Foundation in reaching out to the vulnerable and less privileged established the Frugal Music Entertainment for find, develop, mentor and promote them to stardom.

This initiative have seen the likes of Hilda Muna, World Loso, Gigboski, Fenty, Willy Blinks, MC Oracle and the rise from the local grass-root music to international artists.

Many talents in the entertainment industry are being discovered amongst others you are in IDP camps, written off residents around where Frugal is making impact. We certain that your support and sponsorship of any of these discovered talent will go a long way to help

them change the narratives around their background. TOGETHER WE CAN GIVE THEM A CHANCE

SKILL ACQUISITION

This is another initiative of the Frugal Empowerment Foundation that has proven to be effective in promoting creativity and innovativeness amongst young and highly skilled persons. Since this initiative took off in Ekpoma Edo state, we have rolled out

Tricycle made and other technological innovations. We are focused on establishing centres to ensure purposeful engagement of creative and innovative youths towards solving problems by exploring possibilities.

Frugal Empowerment Foundation

CHARITY

Frugal Charity is one of our initiatives which have over the years proven to be effective and fulfilling. The focus of Frugal Charity is to donate relief material to people in need within every community where Frugal makes a presence. In the UK, Greece and Nigeria for instance, we have reached out to well over 1.2million lives put together with the various sub-arms of the Charity Initiative. Yes under the Frugal Charity initiative we have rolled out sub-arms to

enable the effectiveness of the initiative. These sub-arms include: The caring Saturday, #save the child, #care for the elderly and #meal

THE CARING SATURDAY'S

The Caring Saturdays' is a unique initiative that has touched over 10million lives in Nigeria and beyond. Since inception of the initiative many internally displaced persons (IDPs) lives has been affected positively in their various camps from Ekpoma in Edo state, to Makurdi in Benue

state, Jos in Plateau State, Maiduguri in Borno State the fire of this charity initiative is gathering momentum to reach other parts of African. This is however with the supports we would receive and continue to from you and our consistent donors respectively.

#SAVE THE CHILD

This campaign became necessary under the Frugal Charity Initiative as we continued to encounter little children and infants who are orphans and challenged with one need or the other that demand urgent attention in order to save the child's live and secure their future. (link to site for images and reports)

#CARE FOR THE ELDERLY

The campaign for the Care for the Elderly COVID pandemic continued to impact greatly came on board as in Africa, Nigeria in particular, the harsh economic condition has continue to live the elderly at the mercies of hope. In Europe, UK and Greece the advance.

#MEAL SUPPORT

This is another campaign that has imparted the lives of the financially challenged. Those who for one reason or the other cannot afford two/three square meals daily are being reached out to with breakfast and dinner daily to lighten the frustration that

comes with hunger. This has in no small measure helped to ensure our community is kept safe and sane in the midst of adversity. All thanks those who care and you who we call to join this move.

Leadership Project-

Over the years, Africa has continued to be at the rear of development and innovation because of the lack of the basic ingredient that inspires growth and development—Leadership. Leadership is the ingredient for all national progress and development ever recorded across the globe.

Nigeria for instance which is supposedly the giant of Africa have continued to lead in poverty, illiteracy and violence. For over 22 years of continued democratic governance the country is yet to get it right in terms of leadership. This is because the leadership concept is not addressed at the community level.

It is in this light that the Frugal Empowerment Foundation birthed the Frugal Empowerment Leadership Project. A project that seeks to teach, orient and mobilize leadership at community level, to ignite the fire and desire for

quality leadership at every stratum of leadership in Nigeria and Africa at large.

To address the leadership challenge, Frugal Empowerment Leadership Project holds as well as partner corporate organizations; schools, religious bodies and communities for seminars, workshops, and symposiums designed to address the issue of leadership.

Since this project started in March 2022, we

have had five amazing seasons with the Patron of the project and founder of the Frugal Empowerment Foundation, Mr. Peter Osezua alongside some other international figures like Asekho Ngqandu speaking extensively on the African Leadership challenge.

As the issue of who becomes the president of Nigeria come 2023 takes the front burning of national discussions this leadership talk engagement will continue as we hope to reshape the political space of the country through community leadership.

Appreciation

On behalf of all those who we have been able to reach, those whose hope of a future has been restored and those who got shelter, food and other life enabling items, We at Frugal Empowerment Foundation say THANK YOU to all of our donors, partners and you who supported both in cash and in kind.

We could not have done this without you. They could not have seen us as live savers if it were not for you.

We cannot thank you enough for making the month of April 2022 such a memory both for us and for the less privileged.

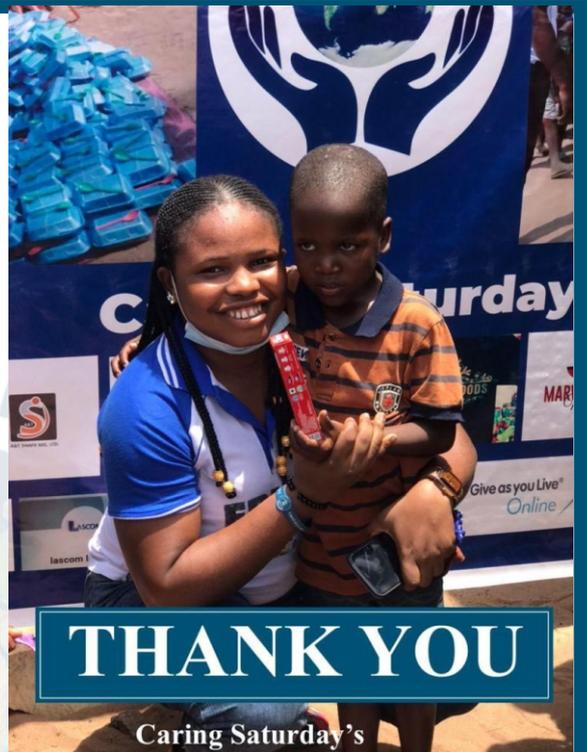

You are our hero, you are their destiny helper and your source will not fail because we at Frugal are praying for you and not just us, but these ones whose lives have been impacted by your giving.

As we look forward to a more fulfilling month of MAY 2022, let us join hands and make more impacts as we continue to expand our reach to touch more lives.

We greatly appreciate you.

Yours in Charity

Peter Osezua
Founder.

Wishing you a fulfilling and fruitful Month of May
